REPORT NO.

25X1X 1. The Soviet submarine E 21 put into Warnemuende (M 55/0 82) at about 8:45 a.m. on 25 November 1949.

2. Armament: A gun of about 60 to 80 mm forward of conning tower, an AA gun of about 30 to 40 mm on top of the conning tower; four torpedo tubes, two at the waterline and two above water at the stern. Source estimates boat's size at 1,000 tons.

3. The boat left harbor again at 4 p.m. on 26 November 1949.

[REDACTED] Comment:

25X1A

It is not possible to identify the submarine definite ly.

However, it may be safely inferred from the reported armament that she is not a modern boat. She is probably a boat which resembles the "S" type Soviet submarine.
